

SECURITY FORCES AND EMERGENCY SERVICES

Transformations for Police Vehicles

Tecnove Security is the sector leader in transforming vehicles for the various law enforcement forces due to its long career in the security sector. Its wide range of technical solutions are used to design the end product which is customised in accordance with the specific needs of the client in question: motorbikes for the Local Police Force, police statement-taking vehicles, riot-control vehicles, vehicles for transporting people under arrest or detained and patrol vehicles.

All transformations fulfil all national and international regulations stipulated by the different organisations, making Tecnove Security an unquestionable reference in the security field.

Both small and large fleets of vehicles fully comply with the demanding delivery deadlines and top-quality standards
